

Advanced Imaging Study Day

Held at St. George's Hospital **Cost:** £150

For: SpR's, Consultant Radiologists, Advanced Practitioners & Radiographers

This day is aimed at experienced Breast Imagers. A prestigious faculty will cover developments in digital mammography and CAD; MRI; PET CT; Ultrasound and Breast Biopsy. The number of places is limited to allow lectures to be interspersed with inter-active sessions where delegates can review and discuss clinical cases with the faculty. This day gives an excellent over-view of where Breast Imaging is going.

<i>09:30</i>	<i>REGISTRATION & COFFEE</i>
